

HELP THE GROVE GROW

WHY?

- Inequitable access to LTC beds
- No local access for residents with advanced dementia
- The Grove is not a financially viable facility
- Responsive to community vision - a full continuum of residential and community-based care places = Seniors Village

How many LTC beds does each community provide to serve its population?

Almonte
(595 of 75+)

Renfrew
(1125 of 75+)

Arnprior
(1128 of 75+)

a) 64

a) 96

a) 60

b) 94

b) 164

b) 152

c) 154

c) 274

c) 228

Lack of Access to LTC

Long-Term Care access for Champlain

	Demand / Supply ratio (Supply + Waitlist) / Supply	Beds per 1,000 75+
Ottawa	1.47	85.9
• East	-	114.5
• Central	-	52.6
• West	-	98.6
Renfrew	1.45	94.3
• Anprior, McNab, Braeside	-	40.5 24.9
• Pembroke and area	-	74.4
• Barry's Bay and area	-	213
Eastern Counties	1.25	108.4
• Prescott –Russell	-	109.4
• S D&G	-	108
North Lanark	1.33	102.6
North Grenville		88.6
Champlain	1.41	93.9
Ontario*	1.30	80.2 80.8

What physical building elements are needed for accommodating residents with advanced dementia ?

- a) A building layout and interior design that assist a resident with way finding and orientation and to prompt memory
- b) A walking loop within the Resident Home Area (pods of 32 residents) that allows residents to exercise in a safe environment, with seating along the way
- c) Lighting, designed for the aged eye and controls that help with the residents natural circadian rhythm
- d) An access control system that will allow controlled access to suit the needs of the specific residents living in that Resident Home Area at any time
- e) All of the above

Currently , the Grove has NONE of those requirements above.

Lack of access for residents with advanced Dementia

- The Grove cannot accommodate individuals who have advanced cognitive issues
- Redevelopment will follow dementia friendly design
- Ability to accommodate needs of advanced Dementia residents

How many \$\$ does Arnprior Hospital
spend every 5 years to subsidize the Grove
?

a) \$200,000

b) \$500,000

c) \$1,000,000

Financial Viability

- At 60 beds, The Grove is NOT financially viable
- \$1 million is required every 5 years from the hospital to subsidize the nursing home
- At 96 beds the nursing home will not require financial support from hospital operations.
- At 96 beds there is sufficient funding to support a portion of the capital cost of redevelopment. (At 64 there is insufficient dollars from operations to support a portion of the capital repayment)

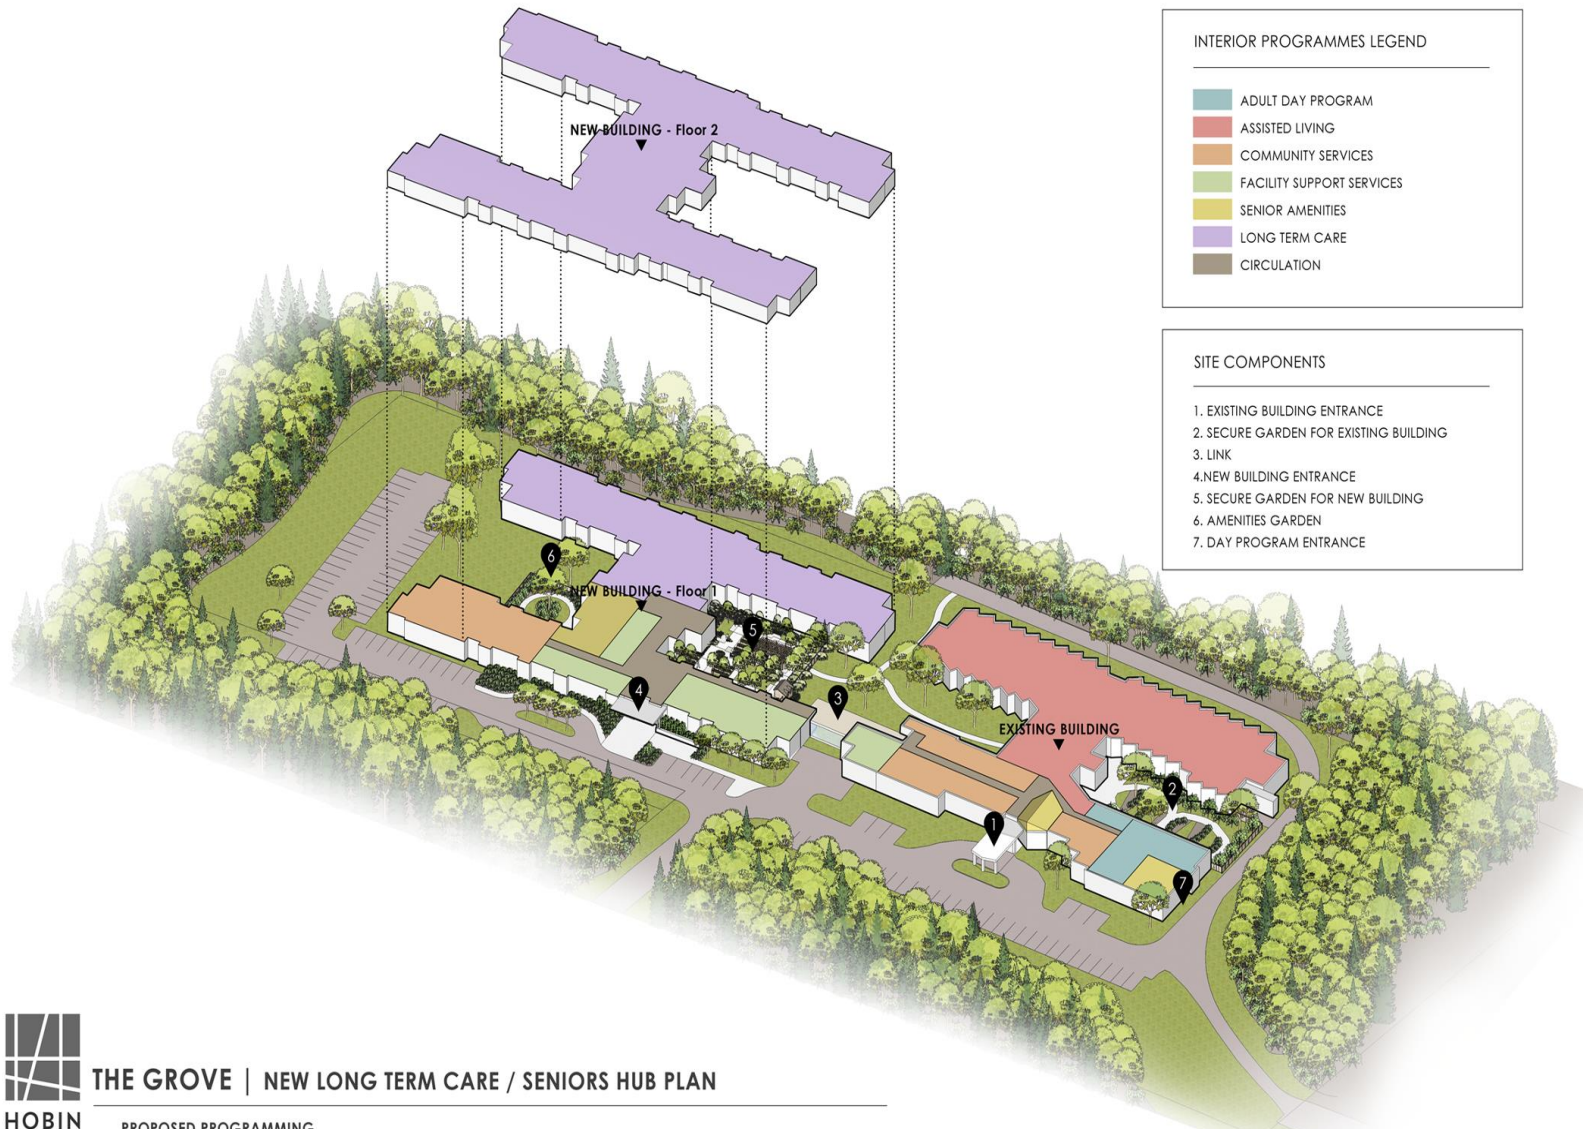

What are the needs of Seniors in our community?

- a) More long-term care beds
- b) Appropriate and affordable housing options
- c) Drop-in Centre for seniors
- d) Transportation to events and activities
- e) Increased in-home health care
- f) Support to caregivers
- g) Increased dementia supports
- h) All of the above

Identified in the Arnprior Age-Friendly Community Plan

Seniors Village

- Address the growing needs of our seniors population – aging at home in their community.
- Community-based care instead of increasing LTC bed capacity alone
 - Supportive Housing
 - Assisted Living Services
 - Adult Day Program
 - Other community-based services

THE GROVE | NEW LONG TERM CARE / SENIORS HUB PLAN

HOBIN
ARCHITECTURE

PROPOSED PROGRAMMING

The issue: We need an additional 36 LTC bed licences!

- No new licences will be issued by the MoHLTC
- 306 licences in abeyance but and their is no process in place how they will be allocated
- An unknown number of facilities will not redevelop and may put there licences up for sale.

Our plans for a 96 bed facility are ready for MoH submission but the MoHLTC will not accept them until all the licences are secured

Advocacy Efforts

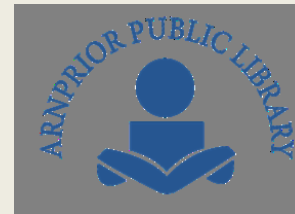

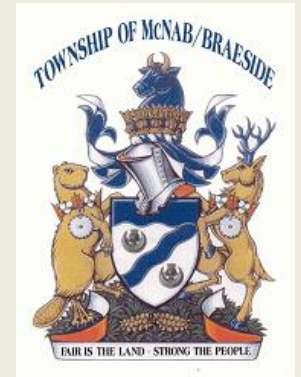

- ✓ Meeting with Senior Officials at the MoHLTC Meeting with MPPs (John Yakabuski, John Fraser, Yasir Naqvi and Marie France Lalonde)
- ✓ Meeting with Mayors and County Officials
- ✓ Meeting with the LHIN
- ✓ Media coverage: radio, newspaper and CTV
- ✓ Social Media- Facebook, Twitter
